

00:00:11:09 - 00:00:14:19

I have been displaced from Ufurow village

00:00:14:19 - 00:00:17:14

and I am currently in an IDP camp in Baidoa, Bay region.

00:00:17:14 - 00:00:21:23

When I was in Ufurow, I was a farmer, and I had a few livestock.

00:00:22:08 - 00:00:24:20

The drought destroyed our crops and killed our livestock.

00:00:24:22 - 00:00:28:02

We were forced to move here in search of food and water.

00:00:28:12 - 00:00:32:08

It took my family 30 days to get here.

00:00:32:08 - 00:00:35:03

We did not have any transportation and we came by foot.

00:00:35:19 - 00:00:41:14

When we arrived in Baidoa, we settled at the IDP camp.

00:00:41:14 - 00:00:46:17

The people in this camp welcomed us.

00:00:51:19 - 00:01:01:08

My wife became very ill, due to the harsh conditions and hunger.

00:01:01:09 - 00:01:04:23

She succumbed to the illness and we buried her here in the camp.

00:01:04:23 - 00:01:08:16

Our lives changed since her death.

00:01:09:00 - 00:01:12:07

I am now playing the role of both parents.

00:01:12:07 - 00:01:19:12

I care for all the nine children alone. I do not have any job or any source of income.

00:01:19:18 - 00:01:25:23

I stay at home and cook food for my children and fetch water for them.

00:01:26:11 - 00:01:30:08

I clean their clothes.

00:01:30:08 - 00:01:35:21

This is not the work I used to do.

00:01:38:09 - 00:01:45:04

Currently, we receive water from a local NGO called GRED0 which is supported by CARE.

00:01:45:16 - 00:01:51:24

We never had any clean water to drink and for personal use. The water is enough for us.

00:01:51:24 - 00:01:58:15

I would like to request humanitarian agencies to support us in food supply because my children and I need food.
